**Roof Deck**

This architectural cross-section diagram illustrates a roof assembly. The top portion is a flat roof deck, indicated by a grid pattern and labeled 'Roof Deck'. Below the deck, a curved structural element, possibly a dome or vaulted ceiling, is shown. A 'Wetbar' is depicted as a horizontal structure with a circular opening, situated between the curved element and a lower level. The lower level is labeled 'Dn' and features a series of vertical lines, suggesting a wall or partition. The area between the curved element and the 'Dn' level is labeled 'Den'. The entire assembly is supported by a thick, dark base, likely a foundation or structural support.
